TRAVEL TO ICELAND WITH MASTER PHOTOGRAPHER JOHN CHUMACK

Join us on a photography tour to Iceland for the Northern Lights and other spectacular natural phenomena in this beautiful country. The tour is under leadership of world renowned astro-photographer John Chumack and expert tour manager Jan Mayer. John has led many such tours before – to Alaska, where photo enthusiasts have learned from “the master” – in the field and at workshops. A tour to Iceland is the natural next step in this quest for excellence.

Iceland is known as one of the best places in the world to see and photograph the Northern Lights. Each year thousands travel to this popular destination to experience the northern lights. They also visit some of the world's most spectacular waterfalls, multitudes of bubbling hot springs and to enjoy views of volcanos and glaciers. A visit in the lively and modern capital Reykjavik is particularly popular.

This tour spends 4 days in the Westman Islands, a little-known cluster of islands south of Iceland, the perfect place for spectacular photography – awesome cliffs, volcanos, lava fields as well as the **Northern Lights**.

Photography

Your Mentor

John Chumack was mesmerized by the stars from childhood on. He built his own telescopes and was soon recognized for his quality level photography of galactic images. His work was sought by high level magazines such as National Geographic and Time. John's work for NASA, exposure on TV programs, in countless science books and magazines, as well as his participation in fine art shows around the country has brought him fame and recognition. John has 10 successful tours to Alaska under his belt, teaching photography of the Northern Lights.

There will be 12 fortunate students, who will have John Chumack as their mentor during this tour to Iceland. In the peaceful and quiet Westman Islands, where the sky is clear and Aurora Borealis performs her lively and colorful dance, then John Chumack will be in his element – to make sure that you will capture it all, - the best pictures of your life.

• Participation

John Chumack is respected for his profound dedication to excellence. He will accept the absolute maximum of 12 students on this tour, so each student can look to a meaningful participation in his workshops. There will be as many as 25 persons on the tour; John Chumack, Jan Mayer, 12 students and 5 spouses or persons who will not participate in the workshops.

• Mother Nature

The main theme of this tour project is photography and the Northern Lights in Iceland. The object is to learn photography of this phenomenon from an expert photographer at a location that is recognized worldwide for that very purpose. It is possible, under adverse weather conditions, that the Aurora Borealis will not appear. This is one good reason why this tour is complete with other exciting photographic subjects, to fill each day. This includes the magnificent Icelandic waterfalls,
